

## May Fair Screen Advertising

As a supporter of the 2015 May Fair we would like to thank you by promoting your business or organisation with on-screen advertising during the May Fair.

We can accept images or slides for display in any of the following formats:

### **Image files (maximum of 5) in .jpeg, .gif, .png or .bmp format.**

The aspect ratio of the screen is 4:3 and the projector resolution is 1024x768. Please provide images that will fit the 4:3 format screen.

Images can be larger than 1024x768 pixels, but there is no advantage in providing any higher resolution images.

### **Short presentations (maximum 5 slides) in .ppt, .pptx or .odp format**

Make sure to set your page format to Screen 4:3

Do not use slide transitions or slide builds/animation as the presentations will be converted to a series of static image files for projection.

Please avoid using any fonts not normally supplied as standard with the computer, or if you wish to use non-standard fonts then please also supply font files in .ttf format.

Please note that the projector will not be connected to the Pavilion's sound system so presentations can not use sound tracks or sound effects.

Email your screen adverts to [secretary@transitionllandrindod.org.uk](mailto:secretary@transitionllandrindod.org.uk)

If you need help in producing your screen adverts, please ask.
