# Cohousing

A new vision for  
community led housing

Cohousing is a different approach to housing that can help to tackle loneliness, social isolation and inadequate housing provision, and strengthen wellbeing.

This month we welcome Allan Shepherd, who is looking into the development of cohousing across Powys. Allan will explain what cohousing is, and how he can help community groups set up their own projects.

**TLT Social is a monthly meeting to hear and discuss ideas on making Llandrindod more sustainable and resilient for these changing times, all are welcome!**
