

The Elan Valley Biochar Project

Llandrindod Transition group invite you to an illustrated talk by Tony Davies on an innovative project to produce Biochar from the Purple Moor Grass 'Molinia caerulea' which grows in the Elan Valley.

Biochar improves water and nutrient retention in soils and can lock up carbon for thousands of years.

7.00pm, Tuesday 27th October

Herb Garden Café

Free entry and refreshments

All welcome
